HALAMAN INSPIRASI

يَا أَيُّهَا الَّذِينَ هَاجَرُوا مِن دِينِهِمْ
وَلَمْ يَكُن لَّهُم مِّنْ دِينٍ شَيْءٌ
يَأْتِيهِمْ يَوْمَئِذٍ مِّنْ لَّدُنْهُ
وَيُخَذُّونَ الْحَقِّ فِي الْيَوْمِ
الَّذِي هُمْ فِيهِ مُخْتَلِفُونَ

“Wahai manusia, sesungguhnya engkau telah bekerja keras menuju (pertemuan dengan) Tuhanmu. Maka, engkau pasti menemui-Nya.”

(QS. Al-Insyiqaq (84): 6)

PRAKATA

Bismillahirrahmanirrahim

Assalamualaikum Warahmatullahi Wabarakatuh.

Puji syukur penulis panjatkan kepada Allah SWT, atas ridho-Nya penulis dapat menyelesaikan penyusunan skripsi penelitian ini. Adapun judul skripsi penelitian yang penulis ajukan yaitu “**Aplikasi Mobile Pemantauan Lokasi Parkir Kendaraan Bermotor di Nipah Mall Makassar**” sebagai salah satu syarat untuk menyusun skripsi pada penyelesaian program Strata-1 di Prodi Teknik Informatika Fakultas Teknik Universitas Muhammadiyah Parepare.

Dalam pembuatan skripsi ini peneliti sudah berusaha semaksimal mungkin, namun tentunya masih banyak kekurangan dan keterbatasan yang dimiliki, oleh karena itu diharapkan kritik dan saran yang membangun untuk penulis. Maka dari itu penulis mengucapkan terima kasih kepada:

- 1) Allah Subhanahu Wa Ta'ala atas segala nikmat yang diberikan kepada penulis salah satunya yaitu nikmat kesehatan sehingga skripsi ini dapat terselesaikan dengan baik.
- 2) Terima kasih kepada ayah (Muhammad Arif) dan Ibu (Lustia) kedua orang tua yang telah memberikan dukungan penuh dan selalu berusaha untuk memenuhi kebutuhan penulis.
- 3) Terima kasih kepada Ibu Hj. A. Irmayani Pawelloi, S.T., M.T. selaku pembimbing I yang telah memberikan arahan dan bimbingan penyusunan skripsi

- 4) Terima kasih kepada Ibu Marlina, S.Kom., M.Kom. selaku pembimbing II yang banyak memberikan inspirasi dan saran kepada penulis
- 5) Terima kasih kepada Bapak Mughaffir Yunus, ST., MT.. Selaku penguji I dan Ibu Andi Wafiah, S.Kom., M.Kom selaku penguji II yang telah banyak memberikan masukan dan ilmu yang sangat berguna bagi penulis.
- 6) Seluruh staf Fakultas Teknik yang telah membantu dalam urusan perkuliahan.
- 7) Terima kasih kepada teman- teman yang telah membantu saya dalam proses penyelesaian study saya. Dalam penyusunan skripsi ini masih terdapat beberapa kekurangan. Oleh sebab itu, saran dan masukan sangat dibutuhkan sebagai bahan perbaikan. Akhir kata, semoga skripsi ini dapat berguna bagi para pembaca dan dapat bermanfaat untuk penelitian selanjutnya.

Wassalamualaikum Warahmatullahi Wabarakatuh

ABSTRAK

MUHAMMAD AKMAL. 218280140. Aplikasi Mobile Pemantauan Lokasi Parkir Kendaraan Bermotor di Nipah Mall Makassar. (dibimbing oleh A. Irmayani Pawelloi dan Marlina).

Penelitian ini dilatarbelakangi oleh parkir secara konvensional atau manual antara lain tidak tersedianya informasi parkir yang lengkap, informatif dan interaktif karena sistem manual tidak dapat menyediakan informasi parkir yang lengkap. Saat ini masih belum maksimal karena menggunakan pencatatan secara manual, seperti pencatatan nomor kendaraan pada karcis parkir sehingga dalam proses pengelolaan parkir membutuhkan waktu yang cukup lama. Selain itu sering terjadi antrian kendaraan yang relatif panjang karena petugas parkir tidak mengetahui apakah ruang untuk lahan parkir masih kosong atau sudah penuh. Tidak hanya sampai disitu, pengolahan data transaksi pada buku besar yang ada dan dipergunakan selama ini tidak transparan disebabkan tidak adanya keterangan yang terperinci mengenai jumlah pendapatan pengelolaan parkir yang ada di Mall Nipah Makassar sehingga menyebabkan data yang di dapat tidak relevan dengan kenyataan dilapangan cara ini kurang efektif dan efisien karena hal ini juga menyita tenaga dan waktu. Tujuan skripsi yaitu menganalisis, merancang dan membangun suatu aplikasi mobile untuk pemantauan kendaraan bermotor di Nipa Mall Makassar dan untuk mengimplementasikan suatu teknologi QR Code pada suatu aplikasi pemantauan lokasi parkir di Nipa Mall Makassar. Pembuatan sistem ini dengan menggunakan *software Android Studio* dengan menggunakan suatu metodologi penelitian GRAPPLE yaitu Guidelines for Rapid Application Engineering, yang terdiri dari 3 tahapan segmen, yaitu segmen requirement gathering, segmen analisis (analysis), dan segmen desain (design).

Kata kunci : *QR Code, Android, Android Studio, Parkir, Nipah Mall.*

ABSTRACT

MUHAMMAD AKMAL. 218280140. Mobile Application for Monitoring Motor Vehicle Parking Locations at Nipah Mall Makassar. (guided by A. Irmayani Pawelloi and Marlina).

This research is motivated by conventional or manual parking, including the unavailability of complete, informative and interactive parking information because the manual system cannot provide complete parking information. Currently it is still not optimal because it uses manual recording, such as recording vehicle numbers on parking tickets, so the parking management process takes quite a long time. Apart from that, there are often relatively long queues of vehicles because parking officers do not know whether the parking spaces are still empty or full. It doesn't stop there, the processing of transaction data in existing and used ledgers is not transparent due to the lack of detailed information regarding the amount of parking management income at the Nipah Makassar Mall, causing the data obtained to be irrelevant to the reality in the field. This method is not enough. effective and efficient because this also takes energy and time. The aim of the thesis is to analyze, design and build a mobile application for monitoring motorized vehicles at Nipa Mall Makassar and to implement QR Code technology in a parking location monitoring application at Nipa Mall Makassar. This system was created using Android Studio software using the GRAPPLE research methodology, namely Guidelines for Rapid Application Engineering, which consists of 3 segment stages, namely the requirements gathering segment, analysis segment, and design segment.

Keywords : QR Code, Android, Android Studio, Parking, Nipah Mall.
